

Look What's Happening This Fall at After School!

Dear Parents:

If you have yet to register your child or children for the After School Program, now would be an excellent time. The registration is \$10.00 per child, and this gets you a calendar every month and entrance to the program when needed.

Starting in October the After School Program will have some returning programs and be adding some new ones. The programs returning to After School this October are: Sewing, Lego Robotics and tutoring with Mrs. Staresinic.

The enrichment programs being introduced this fall are: Knitting with Mrs. Ryan and a Music program with Mr. Donovan. Mrs. Ryan is our Sewing instruction and asked if she could start a knitting club as well. We are looking forward to all the great projects Mrs. Ryan has planned for us this year.

The After School music program will be open to students of all ages. This particular enrichment class will be split into two groups. There will be a group of students from pre-K to third grade and a second group of students from grades four and up. With the first group Mr. Donovan will introduce the students to different instruments and types of music. The second group is going to focus on students who already play an instrument, and who are in band. These students are encouraged to bring their instrument for an extra practice and "jam" session with other band members.

Take a look at the attached flyers for information on what days these programs will be held and the cost for each program. We encourage all students who might be interested in these enrichment activities to come and try them out!

Thank you,
Miss Mancuso
